

We try to instill self confidence and a sense of independence in our students. We provide your child with a firm foundation in life and social skills in a caring, all English environment.

ビーンstalk インターナショナル スクールは、みどり多く残る名古屋市東部の丘の上に立つ、小さな学び舎です。私たちは、人とのかかわり・さまざまなアクティビティーを通じ、社会性・自主性・独創性・創造力を養い、みずから考え、行動する意志を大切にします。また自然・動物を尊び、まわりの人・環境に対して常に愛する気持ちを持って接することを心がけます。

beanstalk
international school

Introduction

Beanstalk International School's Preschool and Kindergarten Programs provide a warm, supportive learning environment conducted entirely in English for students from the ages of two to six years old. Our school first opened its doors in April 2007. We are located in the Motoueda section of eastern Nagoya's Tempaku district, an area known for its many high quality educational institutions. Since opening, our school has enjoyed a continually growing enrollment, and we currently host a number of students leading fun, enriching school lives with us. The instructors and administrators of Beanstalk International School, in close cooperation with parents, strive to provide high quality education at an individualized pace, carefully tailored to the specific needs of each student.

ビーンストーク インターナショナル スクールのプリスクールとキンダー部門は、2歳から6歳までのお子さまを愛情溢れる安全な環境の中指導育成する完全英語の保育園施設です。全米で非常に高い評価を受ける Zoo-phonics メソッドを中心とした英語学習は、言語形成期のお子さまに早く触れがあり、確実に英語力を高めます。目に見える成果の裏には、お子さまのやる気と勉強を育て、楽しく長く続けられる事が実現されています。教師とスクール管理業務が保護者が常に連携し、お子さまの成長発達段階を正しく把握することにより、それぞれの個性と進むペースを把握し、指導育成して参ります。

Manners

Students at Beanstalk learn basic manners from their first day, such as using the phrases "Please," "Thank you" and "I'm sorry." In addition, our students learn basic table manners, how to show politeness to friends and adults and fundamental social skills. Together, these elements make up the basic foundation of our school's character development strategy.

しつけ

私どもでは初日から「Thank you」「Please」「Sorry」などの言葉を使うなど、基本的なマナーに始まる規律を教えます。食事や授業の際の作法、お友達と接する際の大人達へ敬意を示し、礼儀正しく振舞うことなどは当スクールの人格形成方針における礎となっています。

Zoo-phonics won an award

Zoo-phonics 教材 が「教師が選ぶベスト教材」全米 No.1 を受賞。
Zoo-phonics® won a Learning Magazine 2011 Teachers' Choice for the Classroom Award.

Life Skills

Facilities

The inside of our school building is brightly painted and well-equipped with a large variety of educational toys and materials.

Gym: Our program includes plenty of exercise and dance!

The **classroom** is decorated to create a safe, fun, and cheerful atmosphere.

Beanstalk children spend a healthy school life on the **playground**.

Friendship

Our School's Goals

All of our instructors work together in pursuit of the goals listed below.

1. Cultivate in students a sense of respect for others, respect for things and respect for the world around them.
2. Enhance students' creativity, respecting their individuality while working to identify and strengthen his or her specific strengths.
3. Create self-discipline and perseverance in students.
4. Teach basic social skills and give every student a sense of responsibility for his or her own actions.
5. Teach students to be cooperative, kind and considerate to others.

目標

1. 異国の出来事、環境に慣れし、全てのひと・物を尊重し愛する心を育てる。
2. 教師は子供たちの創造力を高め、個性を尊重しながらそれぞれの長所を伸ばす。
3. 自己規律、忍耐力を養い向上を助ます。
4. 社会性を育て、自分の行動に責任を持つ事を教える。
5. 他に協力的で親切にでき、思いやる気持ちを育てる。

1. English Education through Zoo-Phonics, America's #1 Phonics Program

At Beanstalk, all activities are conducted in English. Our curriculum also goes beyond listening and speaking to include instruction in basic reading and writing, though the highly effective phonics program, Zoo-Phonics. Zoo-Phonics provides a balanced, systematic approach to English language acquisition that will serve as a foundation for further study.

1. 全米 No.1 の Zoo-phonics メソッド中心の英語学習
子供たちは2歳の入学時より毎日英語環境で過ごします。1日の生活の中から学んだ英語は、より自然でネイティブスピーカーに近しい能力となります。ビーンストークでは2011 全米 No.1 に選ばれたフォニックス指導法を導入し、「聞く、話す」だけでなく「読む、書く」の技術を習得し、将来の英語学習へと繋げていきます。

2. Fundamental Mathematic Concepts Through Hands-On Experience

At Beanstalk, we believe that it is important that students at this stage become familiar and comfortable with fundamental mathematic concepts, such as shapes, measurements, numerical relations and basic arithmetic through the use of fun, engaging hand-on activities.

2. 幼児期に育てたい算数の概念
ビーンストークでは、日本の算数教育に多い、計算の早さやテクニックを学ぶのではなく、図形や空間の認識、量や数の概念などをハンズオンで実際に物を使用しながら系統的に学びます。ここで学んだコンセプトは、子供たちのイマジネーションを豊かにし、生活の中やアートなど、あらゆる場面で役立ちます。

Curriculum

Beanstalk's programs are well suited for children from both native and Non-native English speaking backgrounds.

Our school's instructors are dedicated to providing complete support to their students, working hard to promote balanced development that considers their well being from all aspects, academically, physically and emotionally. With these goals in mind, our curriculum is founded upon the following four elements.

ビーンストークの教師たちは、あらゆる面で成長を遂げる子供たちの知育、体育、情操を健全にバランスよく育てようという、献身的にサポートします。その指導に用いるカリキュラムは、以下の4つの要素から成り立っています。

3. World-Class Music Instruction

Being skilled with an instrument, and having a deep interest in music, enriches a student's life and broadens his or her horizons. We feature a world-class percussionist as a guest instructor who teaches students the basics of music. Students learn through practice, and look forward to showing their parents the skills they've developed in one of our seasonal concerts.

3. 世界レベルの一流講師による音楽指導
得意な楽器をもち、音楽への興味を深めることは、人生を豊かにし、世界を広げます。ビーンストークではそのきっかけ作りとして、世界レベルのパーカッション指導者を迎え、音楽の基礎を学びます。子供たちは卒業後の発表会の機会を目標として、一年間練習します。

4. Physical Education in our Indoor Gym

Physical education programs must match with the level of a child's physical development. With this consideration, our school offers gym courses tailored to various steps of development, supervised by certified physical education specialists. These classes help students develop their physical strength, balance and capacity for exercise.

Learning Center

Classes

ビーンstalkはお子さまの習熟度と年齢を考慮し、3つのクラス(4レベル)に分かれています。能力が異なるクラスを履修する方法で満たすため、クラス分けは単に学年を基準とするのではなく、個人の発達度合いにより行われます。ただし、一般的ガイドラインとして以下の年齢が「階級」になるケースが多くみられます。年に2回行われるアセスメント(習熟度チェック)と普段の様子からスクールと保護者面談の上決定します。

With consideration for the different ages and abilities of our students, our school is divided into three classes and four levels. To ensure that each student receives care and instruction that fits his or her needs, students are not divided simply by grade level or set criteria, but rather based on individual developmental level. As a general guideline, most students are put together with children of their age level, as shown below. Decisions to advance students to higher-level classes are made on the basis of biannual skill assessments and parent teacher conferences.

Missy Mouse Class * Age: 2-3 years old (3~5 days per week) Preschool Program

Children over 2 years of age enter the program at the Missy Mouse stage. This is a small class with a maximum of 15 children, one classroom teacher and two assistant teachers. Children who are apart from their mothers for the first time, will receive plenty of individual warm attention and care from the teachers to help them to adjust to the new environment and routines at school.

1年目のクラスではまず母子分離をして、英語の教室環境と園での生活のルーティンに慣れることから始めます。美しく無理のない内容・時間配分で、教師やお友達との遊びやアクティビティを通して、子供たちの社会性・自主性を伸ばしていきます。週3~5日 ハーフデイ又はフルデイ

Robby Rabbit Class * Age: 3-4 years old (4~5 days per week) Kindergarten Program

At this age they are improving coordination, beginning to combine ideas and learning more complex games, all while learning about themselves and each other. Our teachers provide plenty of individual attention to support each child's unique needs. Our comprehensive curriculums introduce language arts, math, science, social studies, music, arts, and physical education.

子供たちは英語の理解力と共に集中力もついて、教師の指示に従って一定時間座って学習ができるようになっていきます。算数・理科などの他、音楽やリトミックなどのアクティビティや、運動能力を高めるための体育の授業も欠かさず行います。週4~5日 フルデイ

Deedee Deer Class 1&2 * Age: 4-6 years old (5 days per week) Kindergarten Program

The Deedee Deer program is a two-year comprehensive program for children aged 4 - 6 years old and who have completed the one-year Robby Rabbit curriculum or have the equivalent level. At this age they are ready to take on more responsibility, can accept the basics of social play and complete much more complex tasks. The classes are small to allow language arts and math lessons to be tailored to meet each child's level and needs. Children enjoy and are motivated by the individual attention provided. Although the program is quite academic, the teachers conduct their classes in a playful and enjoyable manner incorporating music and movement into every curriculum area. The teachers are aware that this is an important time in a child's life and strive to develop a love of learning in their students.

Deedee Deer Class2 is equivalent to the U.S. first grade.

2学年・2レベルが設けられるクラスで、カリキュラムの内容と教師の指示はより高度で複雑になりますが、子供たちはそれに対応する能力を磨いています。日本版・米国の違いはありますが、オーストラリア・イギリスの入り口です。習熟度別クラスでのゾーン・フォニックスによる英語教育と算数は、それぞれの年齢とレベルに合わせてプログラムと教材を使います。自主性と社会性が大きく伸びるこの時期は、自己表現力もつき教師やお友達と話したくてたまりません。多くの読書と文法を含む会話パターンを覚えることで、英語力が一気に高まります。卒業時にはアメリカのグレード1レベルを終了します。
